# 1 Billing method

Cloud Firewall has three editions: Advanced, Enterprise, and Flagship. These editions provide different features. For more information, see [Features](#).

## Billing of the Cloud Firewall service

### Note:

Currently, only the users with ECS instances based in Malaysia or Singapore can purchase the Cloud Firewall.

Feature and billing item	Advanced Edition	Enterprise Edition	Flagship Edition
Basic price/month	500 USD/month	1,500 USD/month	4,000 USD/month
Number of supported Alibaba Cloud assets (ECS, EIP, and SLB instances)	The micro-isolation feature is not supported, and the number of ECS instances is not limited.	50 ECS instances by default, which can be scaled out  Extra charge: 4 USD/month for each additional ECS instance	200 ECS instances by default, which can be scaled out  Extra charge: 4 USD/month for each additional ECS instance
Bandwidth (Internet firewall throughput)	10 Mbit/s by default, which can be increased  Extra charge: 16 USD/month/Mbit/s for increased bandwidth	50 Mbit/s by default, which can be increased  Extra charge: 16 USD/month/Mbit/s for increased bandwidth	200 Mbit/s by default, which can be increased  Extra charge: 16 USD/month/Mbit/s for increased bandwidth
Number of enabled public IP addresses	Support 20 public IPs by default.  Extra charge: Support one more public IP for each additional 1 Mbit/s bandwidth	Support 100 public IPs by default.  Extra charge: Support one more public IP for each additional 1 Mbit/s bandwidth	Support 400 public IPs by default.  Extra charge: Support one more public IP for each additional 1 Mbit/s bandwidth

Feature and billing item	Advanced Edition	Enterprise Edition	Flagship Edition
Number of supported policies	1,000	2,000	5,000
Threat detection and virtual patching of IPS	Supported	Supported	Supported
Custom rule	Not supported	Not supported	Supported
Visible network topology and business topology	Not supported	Supported	Supported
Logs (default storage duration: six months)	Logs collecting 5-tuple information	Logs collecting 5-tuple information	Logs collecting 5-tuple information
Number of supported regions	Support 1 region by default.  Extra charge: Support one more region for each additional 50 Mbit/s bandwidth	Support 3 regions by default.  Extra charge: Support one more region for each additional 50 Mbit/s bandwidth	Support multiple regions by default.
Cluster deployment	Shared resources	Shared resources	Exclusive resources

**Note:**

Cloud Firewall protects Alibaba Cloud assets including ECS, EIP, and intranet SLB. It currently does not support non-Alibaba Cloud servers.

**Billing example**

Assume that an Enterprise Edition user has 60 Alibaba Cloud assets with the bandwidth being 60 Mbit/s. Compared to the default number of supported Alibaba Cloud assets and default bandwidth, the user uses 10 additional ECS instances and 10 Mbit/s increased bandwidth. If this user subscribes to the Cloud Firewall service for six months, the service fee (unit: USD) is calculated as follows:  $(1,500 \text{ USD} + 4 \text{ USD} \times 10 + 16 \text{ USD} \times 10) \times 6$ .

**Billing method**

**Subscription.**

For more information, see [Subscription](#).

**Billing period**

**You are billed for the validity period specified in your subscription.**

## 2 Subscription

---

The Cloud Firewall service supports annual and monthly subscriptions. The minimum subscription period is six months.

### Procedure

1. Log on to the [Purchase Cloud Firewall](#) page.
2. Select the Cloud Firewall edition you want.

**Note:**

Cloud Firewall has three editions: Pro, Enterprise, and Flagmanship editions. Different editions support different features and billing methods. For more details, see [Features](#) and [Billing method](#).

3. Drag the slider to select the bandwidth or enter a bandwidth value in the Bandwidth text box.
4. Select a value for Subscription period.

**Note:**

The minimum subscription period is six months, regardless of the edition you select. A 15% discount is offered for subscriptions that last one year. The maximum subscription period is three years.

5. Confirm the order, select I agree to the terms and conditions of Cloud Firewall, and pay the subscription fee.

After the payment is complete, you can use the Cloud Firewall service in the Cloud Firewall console.

**Note:**

If you have subscribed to an edition and want to downgrade it to a lower edition, submit a work order to unsubscribe from the current edition and then subscribe to the lower edition.

## 3 Renewal and upgrade

---

To ensure that the security protection services run properly, renew your subscription to the Cloud Firewall service before it expires.

### Renew the subscription to the Cloud Firewall service

Within the five days after the Cloud Firewall service subscription expires, Alibaba Cloud retains your configurations and data in Cloud Firewall. If you renew the subscription within this period, you can continue to use the current configurations and data.

If you do not renew the subscription within this period, all your configurations and data in Cloud Firewall are released. If you want to continue using the Cloud Firewall service, you need to subscribe to it again. For more information, see [Subscription](#).

#### Procedure

1. Log on to the [Cloud Firewall console](#).
2. In the upper-right corner, click Renew.
3. Select a value for Renewal period.
4. Select I agree to the terms and conditions of Cloud Firewall and pay the renewal fee.

After the renewal is complete, you can see the new expiration date in the upper-right corner of the Cloud Firewall console.

### Upgrade the Cloud Firewall service

1. Log on to the [Cloud Firewall console](#).
2. In the upper-right corner, click Upgrade.
3. Select the expected configuration and click Checkout.

After the payment is complete, the new version of the Cloud Firewall service takes effect immediately. You can see the new version information in the upper-right corner of the Cloud Firewall console.
