April 2021

Feature	Description	Release date	Region	References
Trusted services for Resource Directory	Trusted services refer to the Alibaba Cloud services that are integrated with the Resource Directory service. You can use the management account of your resource directory to complete organization-based management tasks in trusted services. This simplifies the unified management of cloud services.	2021-04	All regions	Overview
	The management account of a resource directory can be used to specify a member in the resource directory as a delegated administrator account of a trusted service. After a member is specified as a delegated administrator account of a trusted service, the member can be used to access the information of the resource directory in the trusted service. The information includes the structure and members of the resource directory. The member can also be used to manage business within the resource directory.	2021-04	All regions	Manage a delegated administrator account
	The following trusted services are supported: <ul style="list-style-type: none"> • Cloud Config • ActionTrail • Security Center • Cloud Firewall 	2021-04	All regions	Supported trusted services

March 2021

Feature	Description	Release date	Region	References
---------	-------------	--------------	--------	------------

Feature	Description	Release date	Region	References
Control Policy for Resource Directory	The Control Policy feature provided by the Resource Directory service allows you to manage the permission boundaries of the folders or members in a resource directory in a centralized manner. This feature is implemented based on the resource directory. You can use this feature to develop common or dedicated rules for access control. The Control Policy feature does not grant permissions but only defines permission boundaries. Before you use an account that is a member of your resource directory to access resources, you must grant the required permissions to the account by using the Resource Access Management (RAM) service.	2021-03	All regions	Overview

December 2020

Feature	Description	Release date	Region	References
Resource sharing management	Resource Sharing allows you to share the resources of your account with other accounts.	2020-12	All regions	Resource Sharing overview
