# 1. Use CloudQuotation

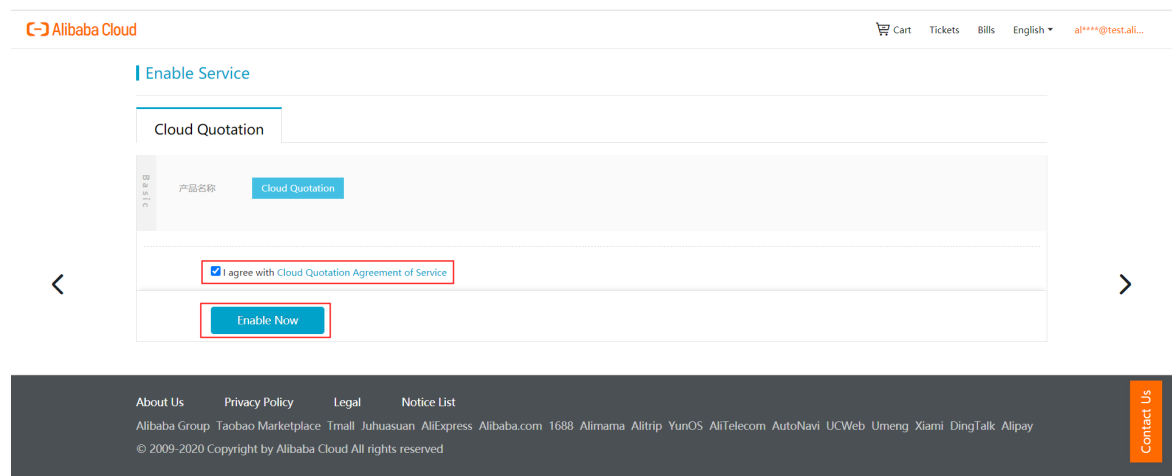

This topic describes how to activate CloudQuotation, manage products, and report usage.

## Before you begin

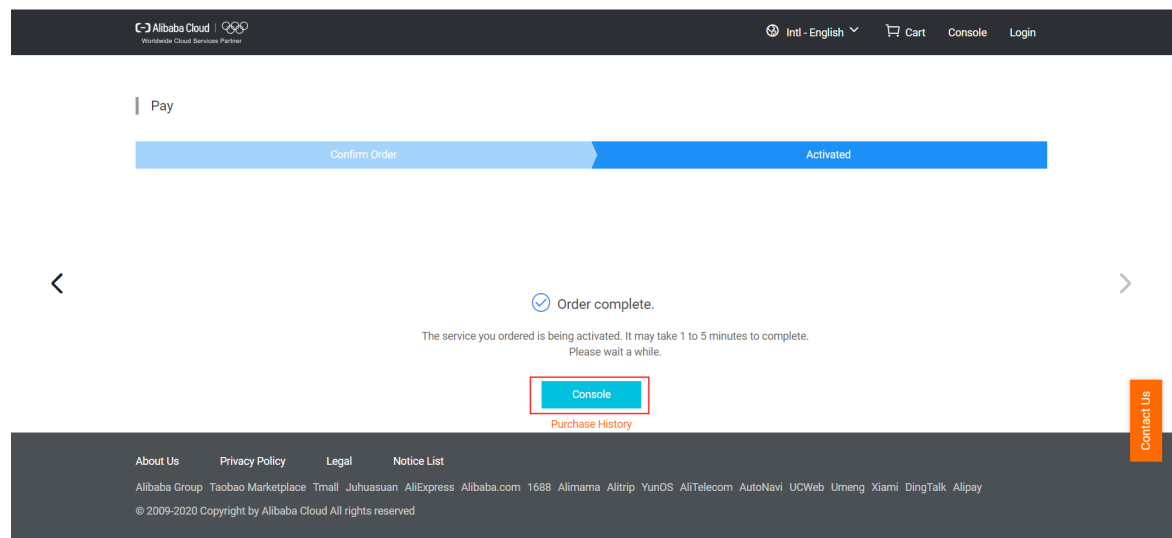

Create an Alibaba Cloud account before you activate CloudQuotation.

## Activate CloudQuotation

1. Log on to the Alibaba Cloud website with your Alibaba Cloud account and go to the [CloudQuotation product landing page](#). Click **Buy Now**.
2. Read and agree to the service agreement by selecting the check box, and click **Enable Now**.

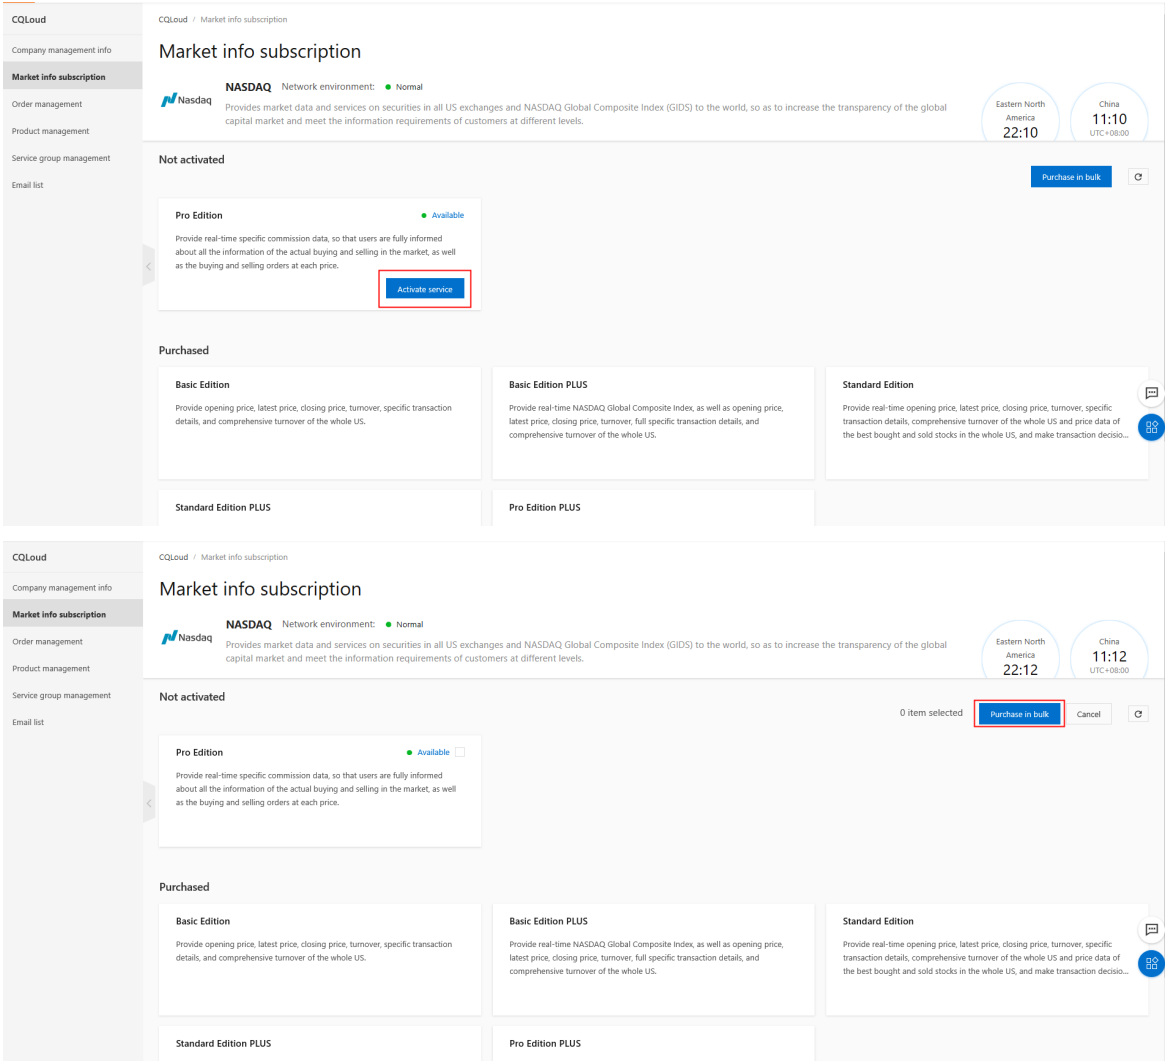

After the service is activated, you can go to the CloudQuotation console and select products with different specifications.

3. Select products.

You can activate a single product or select multiple products and click **Purchase in bulk** to activate multiple products at a time. For more information about the intended customers of different products, see [Product description](#).

4. Apply for activation.

In the dialog box that appears, enter application information and upload required materials. CloudQuotation requires the authorization of exchanges to provide you with required data. Submit relevant application materials as required. The application materials include documents such as the Global Data Agreement (GDA), Data Feed Request Form (DFR), System Application Form (SAF), and soft dollar document. For more information, see [Prepare required documents](#).

The screenshot shows the 'Market info subscription' page on the left and an 'Apply for activation' dialog box on the right.

**Market info subscription page:**

- Company management info:** Market info subscription (selected), Order management, Product management, Service group management, Email list.
- Market info subscription:** NASDAQ Network environment: Normal. Provides market data and services on securities in all US exchanges and NASDAQ Global Composite Index (GIDS) to the world, or capital market and meet the information requirements of customers at different levels.
- Not activated:** Pro Edition (Available). Provide real-time specific commission data, so that users are fully informed about all the information of the actual buying and selling in the market, as well as the buying and selling orders at each price. [Activate service]
- Purchased:**
  - Basic Edition:** Provide opening price, latest price, closing price, turnover, specific transaction details, and comprehensive turnover of the whole US.
  - Basic Edition PLUS:** Provide real-time NASDAQ Global Composite Index, as well as opening latest price, closing price, turnover, full specific transaction details, and comprehensive turnover of the whole US.
  - Standard Edition PLUS:**
  - Pro Edition PLUS:**

**Apply for activation dialog box:**

- Please download the files to be filled in one by one and upload the scanned files to the corresponding locations after printing. In order to facilitate OCR verification, please keep the uploaded files consistent with the original downloaded files as much as possible.
- Please fill in the company name and keep consistent with the following file subject title: test
- This email address is used for the company to receive information related to the product service internally: test\*\*\*@test.com
- Please provide the real mobile number so that we can provide better service for you: 133\*\*\*\*678
- Estimated size:
  - Pro Edition: Number of professional users (0), Number of non-professional users (1000). Price: 157500.000
- Materials upload:
  - All the following forms must be filled in English. Please confirm that the input method is switched to English font. Do not use Chinese font to enter English or enter English under Chinese input method (for example, using Song typeface to enter English).
  - The name of the uploaded authentication files must be the same as that of the templates when activation.
- datafeedrequest file
- [OK] [Cancel]

After you submit your application materials, an order is generated. Alibaba Cloud CloudQuotation staff will review your materials and complete the review within three to five days.

## Configure CloudQuotation

You need to bind an Alibaba Cloud Virtual Private Cloud (VPC) to CloudQuotation products.

### 1. Create a service group.

The screenshot shows the 'Service group management' page. The 'Create' button is highlighted with a red box. The table below shows no data available.

Service group name	Creation time	Description	Operation
No data available.			

Enter the basic information of the service group.

CQCloud / Service group management

### Service group management

Create

Service group name	Creation time	Description
No data available.		

\* Service group name

\* Description

OK Cancel

2. Bind a VPC to the service group.

Find the service group in the service group list and click **View details**.

CQCloud / Service group management

### Service group management

Create

Service group name	Creation time	Description	Operation
vpc	Jul 6, 2020, 11:25:19	Commodity binding	<a href="#">Delete</a> <a href="#">View details</a>

On the details page of the service group, click **Bind a VPC**.

CQCloud / Service group management / Service group details

### ← Service group details

**VPC management**

[Bind a VPC](#)

VPC ID	VPC access address	Description	Operation
No data available.			

Select the destination origin, VPC, and VSwitch.

 **Notice** Currently, the support origins include China (Shanghai), China (Beijing), and China (Shenzhen). More regions will be supported soon. Select the required region when you create the VPC.

### Bind a VPC

\* Target source station

East China 2 (Shanghai)

North China 2 (Beijing)

South China 1 (Shenzhen)

China (Hong Kong)

Singapore

 Source stations other than those in Shanghai, Beijing, and Shenzhen are under the activation process. Please consult about the progress with the ticket system

\* Select a VPC

Select

vpc-uf60qxsgrhqg733wbpxdb

le, because there is  
no VPC network in the corresponding region under the account. Go to here [to create one](#).

\* Select switch

Select

 You need to provide a reason for not selecting VSwitch information, for example, because there is no VSwitch network in the corresponding region under the account. Go to here [to create one](#).

\* Description

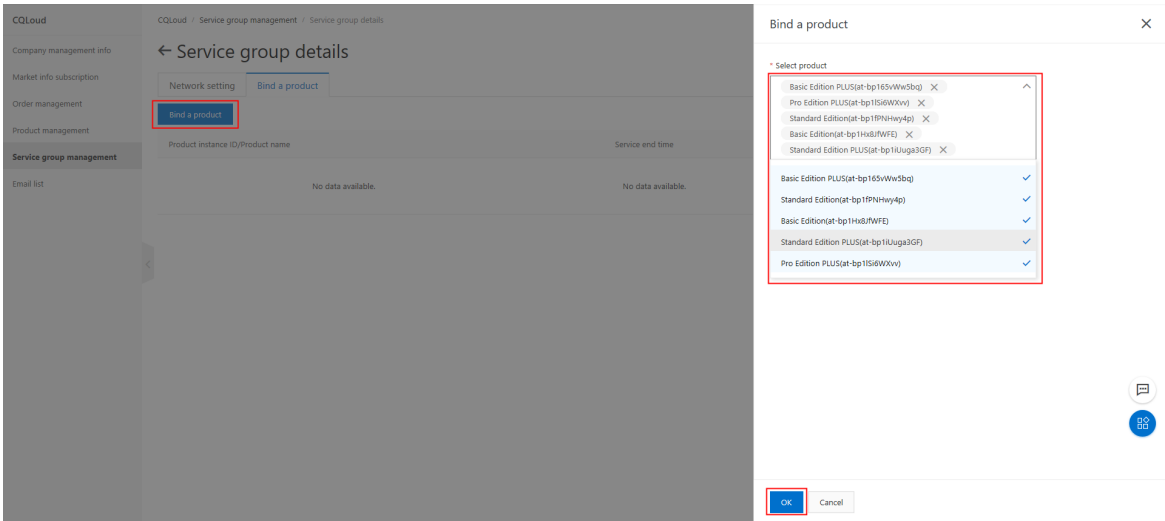

VPC

OK

Cancel

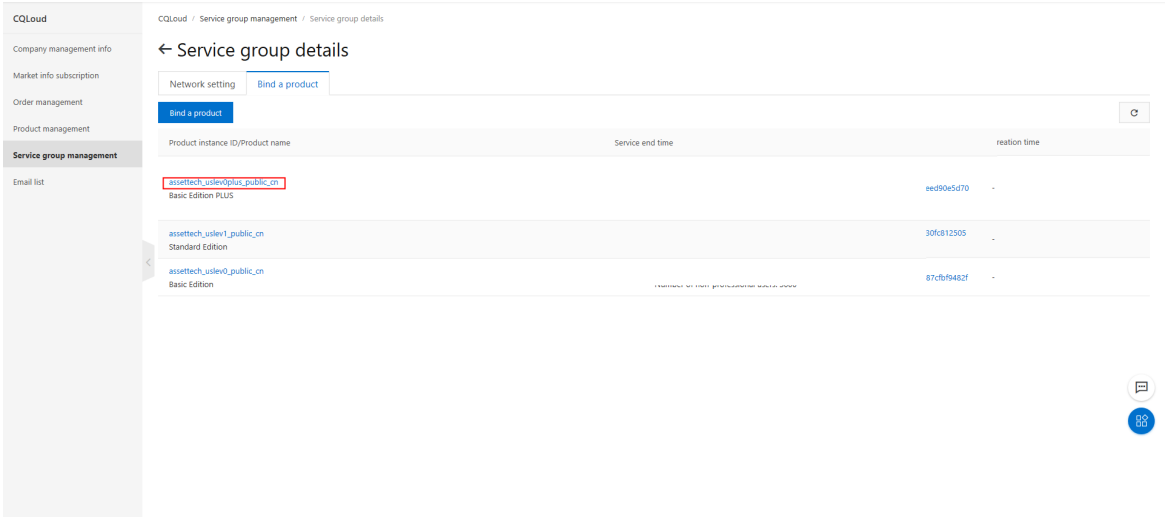

Click the Bind a product tab.

Select activated products from the drop-down list.

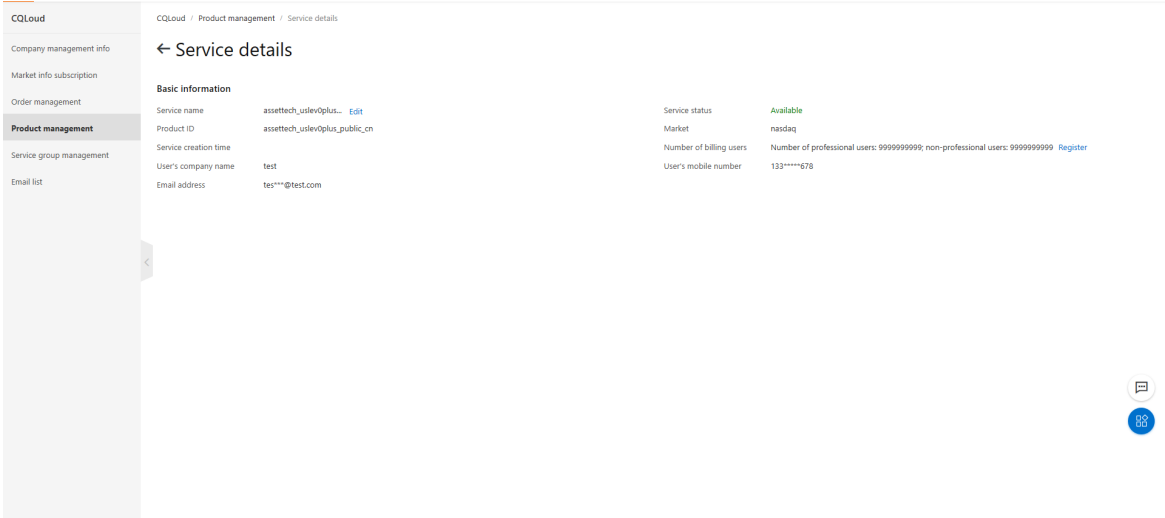

3. Verify the binding.

Click a product to view its details.

Check the service status of the product.

## Manage products

- Register daily usage.

You can register your daily usage of a product in the activated product list.

The screenshot shows the 'Product management' page in the CQCloud console. The left sidebar contains navigation links: Company management info, Market info subscription, Order management, Product management (selected), Service group management, and Email list. The main area displays a table of products with columns: Product instance ID/Product name, Operation status, Service end time, Current usage, Associated order number, Creation time, and Operation. The table lists five products, all with 'Available' status. The first product, 'assettech\_uslev0plus\_public\_cn Basic Edition PLUS', has 99 professional users and 99999999 non-professional users. The 'Operation' column for this product shows a 'Register' button highlighted with a red box, along with 'Report', 'Unsubscribe', and a settings icon. Below the table, a URL is shown: <https://assetsevice.console.aliyun.com/companyInfo>.

You cannot register daily usage between 18:00 on the last day of a month and 12:00 on the first day of the next month (UTC+8). The registration is for recording purpose only. The actual bill is generated based on your reported usage in a month.

This screenshot shows the same 'Product management' page as before, but with a 'Register' dialog box open on the right. The dialog box contains a warning message: 'Registration cannot be made from 18:00 on the last day of each month to 12:00 on the 1st day of the next month.' Below this, there are two input fields for 'Number of billing users': 'Number of professional users' with a value of 0, and 'Number of non-professional users' with a value of 5000. Both fields have red boxes around them. A yellow note at the bottom of the dialog states: 'The above persons are registered only to facilitate recording; the final usage is subject to the report.' At the bottom of the dialog are 'OK' and 'Cancel' buttons, with the 'OK' button highlighted by a red box.

- Report the usage in the current month.

You can report your usage of a product in the current month in the activated product list. You must submit required materials after you change the name of the application for displaying quotation data or add an application.

The screenshot shows the 'Product management' page in the CQCloud console. On the left is a sidebar with navigation links: 'Company management info', 'Market info subscription', 'Order management', 'Product management' (selected), 'Service group management', and 'Email list'. The main area displays a table of product instances. Each row includes the product instance ID/name, operation status (all are 'Available'), service end time, current usage (professional and non-professional users), associated order number, creation time, and operation links (Register, Report, Unsubscribe, and a settings icon). The 'Report' link for the first instance is highlighted with a red box.

Product instance ID/Product name	Operation status	Service end time	Current usage	Associated order number	Creation time	Operation
assettech_uslev0plus_public_cn Basic Edition PLUS	Available		Number of professional users: 99 99999999 Number of non-professional users: 9999999999	e6a2ef52-44b8-4af0-93f3-bee ed90e5d70	-	Register   <b>Report</b>   Unsubscribe   ⋮
assettech_uslev1_public_cn Standard Edition	Available		Number of professional users: 0 Number of non-professional users: 5000	c5716430-d2db-4d1f-a065-83 0fc812505d	-	Register   ⋮   Report   Unsubscribe   ⋮
assettech_uslev0_public_cn Basic Edition	Available		Number of professional users: 0 Number of non-professional users: 5000	a04cc386-6db8-4285-8161-78 7c8f9482f	-	Register   ⋮   Report   Unsubscribe   ⋮
assettech_uslev1plus_public_cn Standard Edition PLUS	Available		Number of professional users: 20 Number of non-professional users: 5000	52b2300d-a30b-4726-bdd9-8 e4ab961d779	-	Register   ⋮   Report   Unsubscribe   ⋮
assettech_uslev2plus_public_cn Pro Edition PLUS	Available		Number of professional users: 20 Number of non-professional users: 5000	0bce18fa-9ebb-476e-ba48-31 4c3a3d2664	-	Register   ⋮   Report   Unsubscribe   ⋮

You must report your usage in the current month before 18:00 on the last day of the month (UTC+8). You cannot report usage between 18:00 on the last day of a month and the tenth day of the next month.

This screenshot shows the 'Report' dialog box overlaid on the product management table. The dialog contains the following information:
 

- Report** (Title)
- Message:** Report cannot be submitted from 18:00 on the last day of each month to the 10th day of the next month.
- \* Company name:** test
- \* Number of billing users:**
  - Number of professional users: 99999999
  - Number of non-professional users: 99999999
- \* Sending method:** Select
- Notes:**
  - The system will generate a bill before the 3rd day of each month. To avoid service discontinuation, please pay the bill in time.
  - If the name of the display application system is changed or a new display application is added, please report the file again.
- Action:** Please download the **systemapplication** file, complete it according to the **template** and upload it.
- Upload area:** Click or drag a file here to upload the file. Supported file types are docx, xls, PDF, rar, zip, PNG, and JPG.
- Buttons:** OK (highlighted with a red box) and Cancel.

## Unsubscribe from a product

You can unsubscribe from a product in the activated product list.

## 2. Prepare required documents

Customers of CloudQuotation need to prepare the following documents:

1. Global Data Agreement (GDA): the main agreement. Sign the document and provide a scanned copy. You can scan only the first five pages including the page on which you signed. For more information, see [GDA sample](#).
2. System Application Form (SAF): specifies the systems and applications where data is used. Fill in the form, sign the document, and provide a scanned copy. For more information, see [SAF sample](#).
3. Data Feed Request Form (DFR): specifies the data feeds that you want to subscribe to. Fill in the form and provide the PDF file. For more information, see [DFR sample](#).

Note that all the preceding forms must be filled in English. Make sure that you are typing using an English input method and an English font. For example, do not use a Chinese input method to enter letters and do not use a Chinese font.
