# 1.Look for products

Alibaba Cloud Marketplace provides you with a wide range of products. You can view recommendations on the homepage or search for products to find the products that you need.

## View recommendations on the homepage

The **homepage** of Alibaba Cloud Marketplace lists selected products, products on sale, and recommended products of each category. You can click a product to go to the product details page.

## Search for products

You can use the search engine of Alibaba Cloud Marketplace to search for products.

Based on the keyword that you enter in the search box, the search engine provides recommended keywords for products and shops.

- Click a recommended keyword to view the search result.
- Ignore the recommended keywords but click **Search** to search for products based on the keyword that you enter. The search engine finds the products that match your keyword.

## Query products by category

## 2. Purchase a product

To purchase a product, you must place an order on the product and pay for the order. After the payment, Alibaba Cloud Marketplace activates the product for you.

### Procedure

1. Log on to [Alibaba Cloud Marketplace](#).
2. Find the target product and go to the product details page. Specify the SKU and quantity to purchase.
3. Place an order.

### What's next

After you purchase a product, Alibaba Cloud Marketplace activates the product for you.

You can log on to the [Alibaba Cloud Marketplace console](#), go to the **My software subscription** page, and then check whether the product is activated.

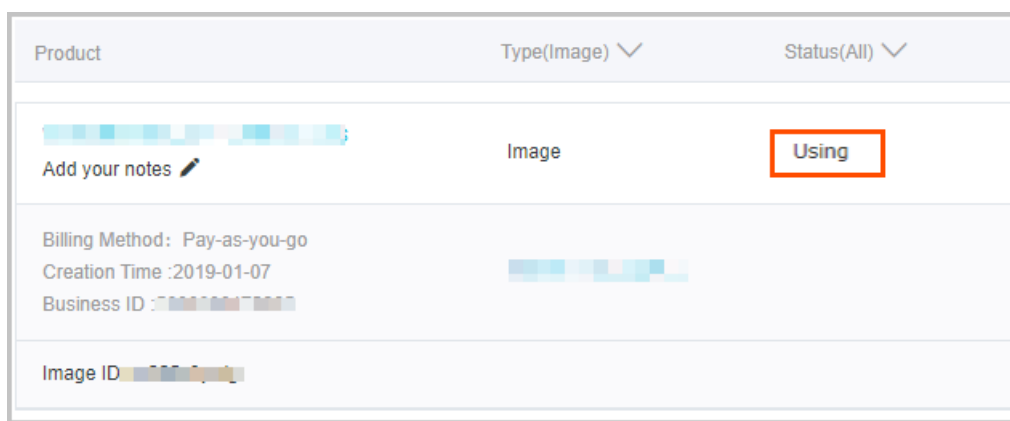

## 3. Use products

### 3.1. Use image products

After purchasing an image product, you can log on to the Alibaba Cloud Marketplace console to check the status and basic information about the image product. This topic describes how to use an image product in the Alibaba Cloud Marketplace console.

#### Procedure

1. Log on to the [Alibaba Cloud Marketplace console](#).
2. In the left-side navigation pane, click **My software subscription**.
3. On the **My software subscription** page, find the purchased image product and verify that the status of the image product is **Using**.

4. Click **Details** in the **Actions** column to view the basic information about the image product.

For more information about how to use the image product, click **User Guide** in the **Basic Information** section to view the user guide online or download it to the local computer.

### 3.2. Use SaaS products

After purchasing a software as a service (SaaS) product, you can log on to the Alibaba Cloud Marketplace console to use the SaaS product. This topic describes how to use an SaaS product in the Alibaba Cloud Marketplace console.

#### Procedure

1. Log on to the [Alibaba Cloud Marketplace console](#).
2. In the left-side navigation pane, click **My software subscription**.
3. On the **My software subscription** page, find the purchased SaaS product and verify that the status of the SaaS product is **Started**. You can click a link in the **Actions** column to perform the corresponding operation.

## 4. Manage orders

After you place an order in Alibaba Cloud Marketplace, you can view the order details and review the purchased product in the Alibaba Cloud Marketplace console.

### View order details

1. Log on to the [Alibaba Cloud Marketplace console](#).
2. In the left-side navigation pane, click **My Orders**.
3. On the **My Orders** page, click **Order Details** in the **Actions** column of an order to view the order details. The order details include the order ID, order creation time, order payment time, order type, independent software vendor (ISV) information, and product information.

Order ID	Product	Contact	Order Time	Order Type	Actions
2020-01-10	...	...	2020-01-10	New	<a href="#">Order Details</a> <a href="#">Waiting for review</a>
