Legal disclaimer

Alibaba Cloud reminds you to carefully read and fully understand the terms and conditions of this legal disclaimer before you read or use this document. If you have read or used this document, it shall be deemed as your total acceptance of this legal disclaimer.

1. You shall download and obtain this document from the Alibaba Cloud website or other Alibaba Cloud-authorized channels, and use this document for your own legal business activities only. The content of this document is considered confidential information of Alibaba Cloud. You shall strictly abide by the confidentiality obligations. No part of this document shall be disclosed or provided to any third party for use without the prior written consent of Alibaba Cloud.

2. No part of this document shall be excerpted, translated, reproduced, transmitted, or disseminated by any organization, company, or individual in any form or by any means without the prior written consent of Alibaba Cloud.

3. The content of this document may be changed due to product version upgrades, adjustments, or other reasons. Alibaba Cloud reserves the right to modify the content of this document without notice and the updated versions of this document will be occasionally released through Alibaba Cloud-authorized channels. You shall pay attention to the version changes of this document as they occur and download and obtain the most up-to-date version of this document from Alibaba Cloud-authorized channels.

4. This document serves only as a reference guide for your use of Alibaba Cloud products and services. Alibaba Cloud provides the document in the context that Alibaba Cloud products and services are provided on an "as is", "with all faults" and "as available" basis. Alibaba Cloud makes every effort to provide relevant operational guidance based on existing technologies. However, Alibaba Cloud hereby makes a clear statement that it in no way guarantees the accuracy, integrity, applicability, and reliability of the content of this document, either explicitly or implicitly. Alibaba Cloud shall not bear any liability for any errors or financial losses incurred by any organizations, companies, or individuals arising from their download, use, or trust in this document. Alibaba Cloud shall not, under any circumstances, bear responsibility for any indirect, consequential, exemplary, incidental, special, or punitive damages, including lost profits arising from the use or trust in this document, even if Alibaba Cloud has been notified of the possibility of such a loss.

5. By law, all the contents in Alibaba Cloud documents, including but not limited to pictures, architecture design, page layout, and text description, are intellectual property of Alibaba Cloud and/or its affiliates. This intellectual property includes, but is not limited to, trademark rights, patent rights, copyrights, and trade secrets. No part of this document shall be used, modified, reproduced, publicly transmitted, changed, disseminated, distributed, or published without the prior written consent of Alibaba Cloud and/or its affiliates. The names owned by Alibaba Cloud shall not be used, published, or reproduced for marketing, advertising, promotion, or other purposes without the prior written consent of Alibaba Cloud. The names owned by Alibaba Cloud include, but are not limited to, "Alibaba Cloud", "Aliyun", "HiChina", and other brands of Alibaba Cloud and/or its affiliates, which appear separately or in combination, as well as the auxiliary signs and patterns of the preceding brands, or anything similar to the company names, trade names, trademarks, product or service names, domain names, patterns, logos, marks, signs, or special descriptions that third parties identify as Alibaba Cloud and/or its affiliates.

6. Please contact Alibaba Cloud directly if you discover any errors in this document.

Document conventions

Style	Description	Example
	A danger notice indicates a situation that will cause major system changes, faults, physical injuries, and other adverse results.	**Danger:** Resetting will result in the loss of user configuration data.
	A warning notice indicates a situation that may cause major system changes, faults, physical injuries, and other adverse results.	**Warning:** Restarting will cause business interruption. About 10 minutes are required to restart an instance.
	A caution notice indicates warning information, supplementary instructions, and other content that the user must understand.	**Notice:** If the weight is set to 0, the server no longer receives new requests.
	A note indicates supplemental instructions, best practices, tips, and other content.	**Note:** You can use Ctrl + A to select all files.
>	Closing angle brackets are used to indicate a multi-level menu cascade.	Click **Settings** > **Network** > **Set network type**.
Bold	Bold formatting is used for buttons, menus, page names, and other UI elements.	Click **OK**.
Courier font	Courier font is used for commands.	Run the `cd /d C:/window` command to enter the Windows system folder.
Italic	Italic formatting is used for parameters and variables.	bae log list --instanceid Instance_ID
[] or [a|b]	This format is used for an optional value, where only one item can be selected.	ipconfig [-all|-t]

Style	Description	Example
{} or {a|b}	This format is used for a required value, where only one item can be selected.	switch {active|stand}

Contents

1 Release notes

This topic describes the release history of major ActionTrail features and provides links to the relevant documentation.

March 2020

Feature	Description	Released in	Supported regions	Documentation
Multi-account trails	Supports delivering the operations logs of all member accounts in a resource directory of an enterprise to the specified Object Storage Service (OSS) bucket or Log Service Logstore.	March 2020	All	• #unique_4 • #unique_5

February 2020

Feature	Description	Released in	Supported regions	Documentation
More supported Alibaba Cloud services	Supports tracking and recording events for more Alibaba Cloud services.	February 2020	All	#unique_6
Optimized engine for online event queries	Allows you to set multiple query criteria with multiple options selected for a single criterion at a time.	February 2020	All	#unique_7

January 2020

Feature	Description	Released in	Supported regions	Documentation
Notifications for event delivery	Supports sending notifications for event delivery. After you subscribe to this feature, you will receive notifications through a Message Service (MNS) topic when ActionTrail delivers events to the specified OSS bucket.	January 2020	All	#unique_8
OSS server-side encryption	Supports server-side encryption for events delivered to OSS buckets.	January 2020	All	#unique_8

December 2019

Feature	Description	Released in	Supported regions	Documentation
Integration with the ECS console	Allows you to view the event logs that correspond to an Elastic Compute Service (ECS) instance in the ECS console.	December 2019	All	#unique_9/ unique_9_Connect_42_section_b
Multiple trails	Allows you to create up to five trails in each region. You can create trails to track and record different types of events that occur in different regions. Then, you can deliver them to the specified OSS buckets or Log Service Logstores based on your business requirements.	December 2019	All	#unique_8

Feature	Description	Released in	Supported regions	Documentation
Region selection for trails	Allows you to select one or more regions in which events are tracked and recorded for the trails that you create based on your business requirements.	December 2019	All	#unique_8
Online query of events that occur within 90 days	Supports the online query of events that occur within 90 days without the need to create trails. The number of days that an event can be retained for query in the ActionTrail console is increased from 30 to 90. You can create trails to store the logs of events for a longer period of time and query them later.	December 2019	All	#unique_7

November 2019

Feature	Description	Released in	Supported regions	Documentation
Direct use of the service	Provides direct use of the service for all valid Alibaba Cloud accounts without the need to activate ActionTrail.	November 2019	All	#unique_10
Best practices	Provides best practices to help you use the ActionTrail service and learn more about the compliance audit in Alibaba Cloud.	November 2019	All	• #unique_11 • #unique_12

October 2019

Feature	Description	Released in	Supported regions	Documentation
More supported Alibaba Cloud services	Supports tracking and recording events for more Alibaba Cloud services.	October 2019	All	#unique_6

September 2019

Feature	Description	Released in	Supported regions	Documentation
Inner-ActionTrail	Allows you to record and store operations logs of Alibaba Cloud services. This improves the transparency of O&M in the console. Currently, only operations logs of OSS are supported. You can submit a ticket to use this feature.	September 2019	Regions in China	#unique_13
